Successful patient outcomes are always cause for joy and celebration here at Center for Healing & Hope. It all starts with access to affordable healthcare for those that lack health insurance and experience other barriers to care. When you donate to Center for Healing & Hope, you make a positive impact by creating access to care, which can lead to life changing outcomes! Mayerling's story describes this well...

"Es la lucecita que Dios pone en el camino, esa esperanza que uno busca para tener y mejorar la salud. Como inmigrante, hipertensa y terminando de pasar por un proceso de cáncer el cual gracias al Centro de Salud y Esperanza fue detectado a tiempo y tengo la dicha de poder dar fe que lo estan haciendo bien, a todo al que pueda ayudar le doy esa luz de esperanza para su salud. Agradecida con Dios, con Jesús, y con todo su equipo por dar ayuda a los que necesitan."

It is the little light that God puts on your path, the hope that one seeks to have and improve health. As an immigrant with hypertension and just having gone through cancer treatment, which was detected on time thanks to CHH, I have the happiness to attest that they are doing things well for everyone they are able to help. Grateful to God, Jesus, and CHH for giving help to those in need.

In 2022, Center for Healing & Hope saw 1,314 patients through 3,216 patient visits. 108 of those visits were specifically for women's health services.

"Como Venezolana que soy me gusta la calidez de su gente, su trato, su preocupación, como dicen sus tríptico ayudar al necesitado en su bienestar físico, emocional y espiritual como lo hizo Jesús. Es un placar haber conocido gente de gran corazón en especial a la Señorita Diana."

As a Venezuelan I like the warmth of the people (at CHH), their treatment, their concern, and as their brochures say "helping those in need with their physical, emotional, and spiritual wellbeing in a Christ-like manner." It was a pleasure to meet great people with big hearts, especially Miss Diana.

Diana runs a sample in the lab at Center for Healing & Hope.

Tengan siempre presente que no somos perfectos. Sin embargo esta en nosotros tener la mejor actitud, la fe que es la certeza que lo que pedimos es escuchado, la esperanza para seguir nuestros sueños y muy importante una sonrisa para nutrir nuestra salud y seguir haciendolo bien. Dios les bendiga.

Always keep in mind that we are not perfect. However it is up to us to have the best attitude, the faith, and the certainty that what we ask for is heard, the hope to follow our dreams, and most importantly a smile to nourish our health and continue doing well. God bless you.

Tune in next month for another story!
